NETWORK AIRLINE MANAGEMENT DELIVERS URGENT EBOLA RELIEF AID CARGO TO THE DR CONGO...

Network Airline Management (NAM) recently played a key role in a multi-stage humanitarian airbridge, transporting over 100 metric tonnes of emergency supplies destined for the Democratic Republic of Congo. Working on behalf of our customer, AVICO, NAM successfully managed the long-haul sector of this mission, transporting the critical cargo from our Liège hub in Belgium to Nairobi, Kenya. Upon arrival, the supplies were seamlessly transferred to a NAM partner airline, Astral Aviation, which completed the final sector of the flight into the affected region.

This operation, coordinated in partnership with the European Union, UNICEF and other logistics partners, involved the transport of vital personal protective equipment (PPE), medical supplies and clinical materials. These items are designed to provide immediate support to frontline health workers and institutions operating in the areas most affected by the recent Ebola outbreak.

Sam Lindsey, NAM's Commercial and Operations Director, stated: "Recognising the absolute urgency of the situation, we prioritised this shipment and did everything possible to create a window of availability within our operational schedule to ensure the cargo reached the transit point for the DRC as soon as possible. Our deep-rooted expertise across the African continent allows us to navigate the unique complexities of the region and we are proud to have utilised the specialised air cargo capabilities of our Boeing 747-400 freighter fleet to get this aid moving without delay."

Network remains dedicated to utilising our extensive network and operational expertise to support international humanitarian relief efforts across Africa. When global organisations and our partners require an immediate, high-capacity response, Network Airline Management is prepared to provide the reliable air bridge necessary to move essential aid from the tarmac to the front lines.

Network Wins the Vertical Excellence Award at Liege Airport's Cargoland Gala 2026...

We are thrilled to announce that Network Aviation Group has been presented with the Vertical Excellence Award at Liege Airport's inaugural "Cargoland" Gala earlier this year!

This award recognises our commitment to high-performance logistics and our specialised growth within the Liège hub, our primary aircraft base in Europe.

While the evening celebrated many industry milestones, the Vertical Excellence category specifically highlighted our ability to manage complex, industry-specific supply chains. From high-value goods to sensitive cargo, we've moved beyond standard freight to provide a truly specialised, end-to-end service alongside our global partners.

"This award is a massive recognition of our hard work at our European home," our team shared. "A huge thank you to our global offices for driving this success and to Liege Airport for hosting such a fantastic event."

This win reinforces our position within the Liège ecosystem. By combining precision ground handling with our expansive global route network, we've solidified our reputation as an industry leader in specialised logistics. We look forward to building on this momentum right here at our Liège aircraft home.

Congratulations to ash

The award with one of NAG's aircraft models

What an Incredible Week in Shanghai for Air Cargo China!

Our Network teams had a highly productive and successful few days in Shanghai and we're incredibly proud to have exhibited at Air Cargo China for the first time ever... it did not disappoint. A massive thank you to everyone who stopped by our biggest booth yet to catch up with our teams from across the Group, to talk all things air cargo and explore new opportunities - see you in 2028!

Joanna Li (left), Frosti Lau (second right) and Cherry Ho (right) from HACTL, present Jonathan Clark with a special bottle of gin at Air Cargo China.

John Gilfeather (second left) with party guests

John Gilfeather presenting at the WACA.

Our Chinese hosts Kinoko and Jade at the Network booth.

Our Network teams recently wrapped up an incredible week in Shanghai for Air Cargo China, marking our very first time exhibiting there. This event was the stand out in our calendar this year and it truly exceeded our expectations. Seeing our largest booth to date come to life made the months of preparation worthwhile.

The real highlight at all of these events is always the people you meet. Whether it's catching up with long-standing clients and partners at the booth, networking at the various evening events throughout the week, or celebrating together at the World Air Cargo Awards, where we were proud to sponsor the Regional Cargo Hub category, the moments off the booth are just as important as those on it.

We'd like to say a big thank you to everyone who stopped by to connect with us throughout the week. Shanghai has set a high bar and we are already looking forward to keeping that momentum going and seeing everyone again at the next edition of Air Cargo China in 2028.

Network Airline Services as table sponsor.

Get to Know Sam Lindsey, Network Airline Management's Commercial & Operations Director

Sam has been with Network Aviation Group for over 12 years, having joined the team way back in May 2014 and with his recent ascent to Commercial and Operations Director of NAM, Network's future looks promising!

Our "Get to Know" feature is back in Network News after a short time away. Get to Know, is an original Network feature, where we interview individuals from the wider Network Aviation Group team from around the world. We find out more about them, such as their role models and icons, to how they got into the industry and everything in between. So, let's shine the spotlight this time, on Sam Lindsey...

How did you get into airfreight/logistics?

When I was 19 I saw an interesting advert in the newspaper 'All African cargo airline looking for Operations Assistant'...I was asked if I could name 5 African countries and thankfully the African Cup of Nations had just been on TV so I scraped through! After a couple of months I was thrown in the deep end taking responsibility of the crew scheduling for 50+ crew members, a role I really enjoyed.

What quote has most resonated with you?

One that immediately springs to mind, I would say, "Pressure makes diamonds."

What's the best piece of advice you've ever received?

I've received some great pieces of advice over the years, but one that sticks out to me, is "keep positive, there is a solution somewhere for every problem."

What is the most adventurous thing you have ever done?

Most recently climbing Mount Toubkal in the Atlas Mountains range during winter. I highly recommend it to anyone, as you see a completely different side of Morrocco and the views are truly amazing. A trip that I won't forget for a long time!

If you could have dinner with any three people, living or dead, who would it be and why?

Nelson Mandela – to hear his unbelievable story and to learn about all of the hurdles that he overcame throughout his life.

Michael Jordan – to understand the mindset behind his success, especially how he dealt with failure, and what drove him to stay at the top for so long.

Elton John – With his colourful past, I think there are still a few wild stories there to share...

What's something we wouldn't know about you from your CV?

I have an international sailing licence but I think I would get lost without my Dad's navigation skills!

What hobby have you always wanted to try but never got around to?

I'd love to give scuba diving a try, to explore what's hiding underneath the deep blue seas...

If you could have any superpower, what would it be?

I'd love to have the ability to time travel – to see and experience some historical and future events, it would certainly help some decision making in our line of business, but maybe that's cheating!

What's your proudest moment and your biggest regret?

My proudest moment has to be my wedding day (which was very recently!) My biggest regret – to be honest, I try to forget about those and keep learning from any mistakes...

If there was a movie made about your life, who would you like to see play the lead role?
Harrison Ford, I'm not sure it would quite meet the Indiana Jones standards however!

Looking back over your career, what would your message be to someone considering a career in logistics?
Do it. You will learn a lot about the world and work with people of all nationalities. Ask questions and be curious! Every day is school day.

How do you motivate your team?
I try to empower them with knowledge and the ability to make their own decisions.

What is the one thing you can't travel without?
My headphones, for a good playlist or podcast.

Who is your role model?
I would say my Dad, he has a great outlook on life and doesn't take things too seriously.

What would your autobiography be called? 'Working late, moving freight'

Are you a cat or a dog person? I'm a dog person, 100%!

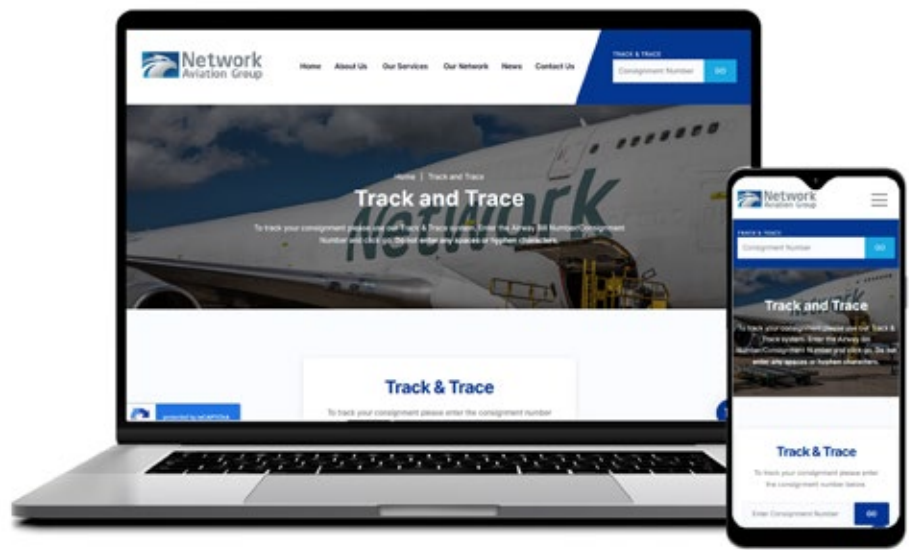

What is the best and worse purchase you've made?
Best and possibly worst purchase – my first car, a Rover Metro, although I wish I still had it today...

If you could only eat one meal for the rest of your life, what would it be?
It's got to be a Christmas Dinner with all the trimmings!

What's your most used emoji?
Laughing face...you've got to keep smiling.

A BIG thank you to Sam for sharing these insightful answers with us. Be sure to pick up the next edition of Network News as we feature another Network colleague!

NAM Sets a New Record for Valentine's Day 2026

Network has reached new heights this year, transporting a staggering 3,100 tons of freshly cut flowers from Nairobi to Liege!

To meet the unprecedented demand of the 2026 "Valentine's Day Rush," our teams managed its largest ever flower operation to date. Take a look at some of the impressive stats below...

A Record-Breaking "Flower Rush"

The peak period, spanning the two weeks or so leading up to Valentine's Day, saw a massive surge in demand. Since the expansion of the flight schedule in late 2025, NAM now operates **8 scheduled northbound flights every week** from NBO to LGG. For the 2026 Valentine's rush, this meant:

16 regular scheduled flights +
15 additional flights (our highest number ever!) =
31 total flights dedicated to the Valentine's rush!

Each flight with our fleet of Boeing 747F aircraft was pushed to its maximum potential, carrying **100+ tons** of roses and carnations per trip. In total, the operation moved **3100 tons** or **3.1 million kilos** of flowers across **1,300+ pallets**, with an average weight of over **2.3 tons** of flowers per pallet.

Precision Logistics from Nairobi to Europe

With the NAS NBO Operations team overseeing every flight rotation on the ground in Kenya, the flowers are loaded and flown to NAM's Liege hub with experienced efficiency. Upon arrival, the flowers are quickly processed then transferred via road networks to wholesalers and florists across Europe and the United Kingdom, ensuring the blooms arrive fresh for the big day!

"We are thrilled to have reached another incredible milestone," said Sam Lindsey, Network Airline Management's Commercial and Operations Director. "The increase from 6 to 8 weekly scheduled flights last year boosted the foundations of our regular schedule, but operating an additional 15 flights specifically for this peak season is a testament to the hard work of our global teams. We remain deeply committed to supporting the Kenyan horticulture industry now and in the future. We appreciate our long-standing partners and customers for continuing to collaborate with us, we have set these new records with you by our side!"

Over Four Decades of Growth

The Network Aviation Group has been a pillar of support for Kenya's flower industry for over **40 years**. Following the increase in its scheduled flight programme at the tail end of 2025, NAM now maintains a robust year-round schedule of 8 weekly B747F flights, ensuring Kenyan growers have consistent, high capacity access to global markets.

Large flower pallets being loaded on NAM's TF-AKE aircraft in Nairobi, NBO.

Flower pallets being loaded.

So many pallets loaded with flowers ready to be loaded.

Touchdown in Japan for These 3 Beautiful Animals

Network Airline Management is proud to have safely relocated three Asian elephants named Kilat, Dara and Amoi from Malaysia to Japan, exercising the heavy-lift capabilities that only NAM's B747-400 freighter aircraft can provide!

We'd like to say a BIG thank you to our local teams and all involved who transported these gentle giants with the expertise they deserve, ensuring their safe and comfortable arrival at their new home in Japan.

Empty dollies sitting in front of NAM's TF-AMM aircraft.

Such beautiful animals!

The elephants are loaded into green crates, one per crate.

Network's Team in Guadalajara Honoured with AA Cargo Cup

We're proud to announce that our Network Cargo team in GDL has been awarded the American Airlines "Cargo Cup."

Network Cargo's Guadalajara team accepting the AA Cargo Cup.

This prestigious industry recognition highlights the team's exceptional operational performance and commitment to excellence within the American Airlines network. The Cargo Cup is awarded to stations that achieve the best operational results within the "Small Station" category. This accolade serves as a testament to the team's hard work, precision and dedication to maintaining the highest standards in air cargo logistics.

"We're incredibly proud of our Guadalajara team for this outstanding achievement! Winning the Cargo Cup in such a competitive category is a direct reflection of the team's relentless focus on excellence. This award is well-deserved and highlights the high-performance culture we strive for across all our global stations."

This award reinforces Network Aviation Group's reputation for operational reliability and its ability to consistently deliver results.

Network Renews its Sponsorship with CDG FC

At Network Aviation Group, community spirit is at the heart of everything we do. That is why we are thrilled to extend our sponsorship of Crawley Down Gatwick FC for yet another exciting season!

To mark this milestone sponsorship, the club's Chairman recently surprised us with two fantastic framed shirts, home and away, featuring the Network Aviation Group logo front and centre. It is a proud reminder of our shared values and our ongoing partnership. We love seeing "The Anvils" represent us on the pitch and we remain committed to cheering on local grassroots sports in the London Gatwick area.

Dave Connor, Crawley Down Gatwick FC's Chairman presents Andy Leslie, Network Aviation Group Chairman with a blue away shirt.

A Warm Worldwide Welcome to Network's New Starters

Asia Choujaa at Network Airline Services in Paris.

Jorge Barna at NAM LGW.

Poppy Robbins at NAS LGW.

Ian Munene and Christabel Liseche in NBO.

Cerys Short at NAS MLA.

Network Aviation Group around the world has welcomed multiple new starters in the last few months...

At our Paris office, Asia Choujaa joins NAS CDG as a Customer Service Agent, while Cerys Short comes on board at NAS Malta as a Customer Services and Reservations Agent. In the UK, Rebecca Mussell and Jorge Barna join the NAM Ops team at Gatwick as Operations Officers, alongside Poppy Robbins who takes on the role of Junior Commercial Executive at the Group's LGW Headquarters.

Further afield, Emanuel Udoroaica joins NAS OTP in Romania as a Customer Services, Operations and Reservations Agent. Finally, expanding our team in Nairobi, Christabel Liseche and Ian Munene joins the team as Purchase Ledger Clerks, alongside Joseph Chege who joins as an Operations Officer. "We'd like to welcome all our new starters and we all wish them the very best in their new roles!"

Network Strengthens its Roots in LBV and POG, Gabon

Florent Turlier and Sam Lindsey recently visited Libreville and Port Gentil for some productive face-to-face sessions with our valued customers and trusted partners in the region.

"Trips like this one allow us to ensure that we remain the most reliable partner that this niche market demands and deserves. Whether it's our weekly 110-ton direct service from Liège or our seamless links to Port-Gentil, we don't just fly to Gabon - we regularly invest in its long-term growth and development!" Florent Turlier - Director France, on his visit to Gabon.

Florent Turlier meets the station manager.

Sam, Florent and Didier with a NAM aircraft.

Didier Kouakou, Sam Lindsey and Florent Turlier smile for the camera.

NAS Paris Says Au Revoir to One of Their Own!

Network Airline Services France says goodbye to Christine Chantereau-Capocci, who begins her fully deserved retirement.

Big smiles at the NAS CDG office.

Florent, Christine and Louise Bantock.

Christine (middle) with the NAS CDG team at the Moulin Rouge.

Christine will be deeply missed. Her departure on April 30th 2026, will mark the end of an important chapter for Network Airline Services in France and the beginning of a new one for her - a long-awaited and truly well-deserved retirement.

When a colleague leaves, it is always a meaningful moment. When that colleague is a true pillar of the company, recognised for her professionalism, commitment and human values, the moment becomes truly special. It is with emotion, respect and gratitude that the team and the Group pay tribute to Christine and her remarkable career in the demanding world of air freight.

Beyond her technical and commercial skills, Christine stood out for her human qualities, her availability, listening skills, team spirit and her willingness to share knowledge. These values were highlighted during her final six months at Network, when she trained and supported her successor, Clément Gauthier. With generosity and pedagogy, she passed on all the keys of the air freight profession, ensuring a smooth transition and a future in excellent hands.

To honour her years of dedication and loyalty, her departure was celebrated in Paris at the legendary Moulin Rouge, a meaningful moment of recognition, friendship, and shared emotion. Today, the entire Network Aviation Group wishes Christine a peaceful, fulfilling retirement filled with happiness, new adventures, personal projects and precious moments with her loved ones.

Christine leaves behind a lasting professional and human legacy. Her journey will continue to inspire our teams for many years to come. We wish her all the very best for this wonderful new chapter of her life.

A 1st Class Afternoon at The ACA's Spring Lunch

Network Aviation Group was pleased to participate in The Air Charter Association's (ACA) Spring Lunch 2026, an event that remains a key fixture in the industry calendar for our UK and European teams.

As a long-standing and proud member of The Air Charter Association, Network Aviation Group places high value on opportunities to engage with partners, clients and industry peers.

The Spring Lunch provides a productive and professional forum to connect with the broader aviation community in the heart of London.

"Events like the ACA Spring Lunch are essential networking opportunities to build on the relationships that drive our industry forward. "We were delighted to host another table of guests at this premier venue and we appreciate the opportunity to share insights and strengthen our professional ties within the air charter sector."

We extend our thanks to the event organisers and to all the guests who joined the team for the afternoon. The group looks forward to continued collaboration with The ACA and remains committed to supporting initiatives that promote excellence and networking across the aviation industry.

Alex Kirkham (back to camera) speaking with Neil Ledingham and Sam Lindsey at the Spring Lunch.

Events like the Air Charter Association's Spring Lunch are essential network opportunities to build on the relationships that drive our industry forward.

Our London Gatwick Team Take A Trip to Liege, LGG...

For some of our team at London Gatwick, this was their first time seeing our Boeing 747F aircraft in action in Liege!

In May, Rebecca and Josef from our Ops team and Amy and Daniel from our reservations team visited NAM's Liege hub to see our aircraft in action. They experienced a full turnaround of the aircraft with a full onload and offload of perishable cargo. Going airside and seeing the aircraft in the flesh is always a good experience for our teams, as it connects their daily work to the physical flight and cargo.

What a great reflection!

A fantastic experience, seeing our aircraft in action.

A nice shot of the team.

Josef, Rebecca, Amy and Daniel taking a selfie with TF-AMU.

A massive thank you to our Liege team for hosting us and for the time they spent with us. Seeing our aircraft in action is invaluable.

Capacity TO MOVE the World

We are air cargo GSSAs and capacity management specialists

Network Airline Services offers airlines the full range of GSSA services. Globally positioned, with established teams in all major air cargo hubs, we have the right blend of experience, customer relationships and local market knowledge to ensure our airline partners' costs are reduced but their cargo revenue opportunities are maximised.

Network Airline Services has:

- The benefit of more than forty years of experience in air cargo management
- Expert knowledge of local markets and international opportunities
- An established track record of maximising revenue for more than twenty airlines
- A commitment to offering the highest levels of customer service to both you and your customers
- The experience to grow your cargo sales whilst optimising your cargo capacity and space.

A World of Cargo, Managed www.network-airline.com

Network Airline Services

NAS NBO Donates IT Equipment to a Local Community School

Back to the classroom for our Network Airlines Services team in Nairobi, as they donate further IT equipment to a local school.

From our office to their classrooms, our NAS team in Nairobi has returned to the local school in Embakasi, but this time with IT equipment. Following their furniture donation earlier this year, we were thrilled to visit the students once again, this time delivering a large collection of IT equipment.

To aid the students' digital learning, this equipment will help build vital tech skills for the future. "We are proud to see our old IT equipment get a new lease of life and find a meaningful new home in our community, which is at the heart of Network in Nairobi."

"We'd like to say a HUGE thank you to our staff, IT colleagues and the local logistics teams for working together to make this happen, to further these students' education for the next generation!"

Celebrating Lunar New Year of the Fire Horse around the Group...

We recently celebrated Lunar New Year here at Network and ushered in the Year of the Fire Horse with some team celebrations.

From our Eagle House Headquarters at London Gatwick in the UK, to our Network Airline Services teams in Johannesburg in South Africa and Nairobi in Kenya, it was a fantastic day of food, tradition and good luck. We wish our colleagues, partners and clients a high-flying, prosperous year ahead!

Network at the FIFA World Cup '26

Now that the dust has settled on the 2026 World Cup, its celebration of global diversity reflects our own incredible Network staff across North and South America, Europe, Africa and Asia. Just like the teams on the pitch, our worldwide teams bring together a rich mixture of cultures and backgrounds that aid in our global success.

This mix of people and cultures is one of our greatest strengths, uniting us across borders and countries with one shared goal. Just like the tournament itself, our everyday collaboration proves that diversity is at the heart of everything we achieve together.

Events Hub

Network is Proud to Celebrate African World Heritage Day!

Network is proud to join in this year's global observance of African World Heritage Day. This occasion serves as an opportunity for the Group to celebrate the rich cultural legacy of the continent and acknowledge the vital, daily contributions of our African colleagues globally.

NAS CDG at the 2026 WFS Summer Party in Paris.

Florent Turlier and our Network Airline Services CDG team were delighted to attend the 2026 WFS Summer Party at the magnificent Le Pré Catelan venue in Paris.

A huge thank you to WFS for organising such an exceptional evening. It was a fantastic opportunity to catch up with the WFS teams, connect with airline partners and customers and exchange insights on the future of our industry in France and beyond.

Dressed to Impress for a Day at Royal Ascot

Network Aviation Group hosted a table of 10 special guests earlier this year for day 1 of Royal Ascot, in premium hospitality at one of the world's most iconic horse racing events. It was great to bring together a mix of Network staff with some loyal customers and partners for a day of world-class racing at such an iconic British venue. Huge thanks to all our guests who joined us!

Network Airline Management's TF-AMU B747-400F aircraft on the ground in Liege, loading up with 90 tonnes of relief aid cargo bound for Maputo in Mozambique.

Network Airline Management First on the Ground to Support Flooding in Mozambique

A Network Airline Management (NAM) freighter aircraft carrying 90 tonnes of humanitarian aid from the European Union arrived in Maputo, Mozambique last night to strengthen support for nearly 700,000 people directly affected by flooding in the country.

According to a statement from the Ministry of Foreign Affairs and Cooperation of Mozambique, the Boeing 747F aircraft transported tons of "humanitarian aid for hundreds of thousands of Mozambicans trapped by the floods." The cargo was gratefully received at the capital's airport by Minister Maria Manuela Lucas.

This was the first humanitarian cargo flight from the EU to Mozambique, carrying 90 tonnes of health equipment, shelter materials, hygiene items, nutrition supplies, education materials plus various protection equipment.

The cargo originates from EU storage in Denmark and will be distributed through UNICEF and local humanitarian partners. Earlier this year, the European Commission announced that it would provide €1.15 million in humanitarian aid to Mozambique and Malawi as an emergency response to the catastrophic floods that occurred in both countries.

The announcement was made by the European Commissioner for Humanitarian Aid and Crisis Management, Hadja Lahbib, in a social media post: "Deadly floods have struck Southern Africa. To support the emergency response, the European Union (EU) will provide €1.15 million in humanitarian aid to Mozambique and Malawi."

Network Airline Management and its teams around the world are proud to do its part and help out where they can, to deliver aid to those in the most desperate need in Maputo, Mozambique and the surrounding region.

Loading up TF-AMU with relief cargo.
